

## Humble ISD Education Foundation 2000 Innovative Education Grant Program

In the first year of existence, the Humble ISD Education Foundation has already raised enough money to award **\$46,000** in grants through their Innovative Education Grant Program. In May of 2000, their Prize Posse (donors and community volunteers) boarded school buses, armed with balloons, cameras and big checks and surprised teachers all across the school district with the good news that they won a grant. **Twenty-five grants** were awarded on this special day and **nineteen different campuses**. Below is a list of the grant winners for this year.
